WE NEED HELP FINDING OUR CLASSMATES! Between the two schools there were 772 seniors. Many females married after 1962 and we don't know their new last names. Email or call us about anyone you know; please don't assume we have their information. We are missing many addresses, phone numbers, or current email addresses. If you are signed up for different 'search' sites or ancestry sites, and want to help play detective. we will send any classmates. via email, our most current list.
